MANUFACTURER'S CERTIFICATION STATEMENT

For Residential Energy Efficient Properties Purchases

Under Title 26 - Internal Revenue Code § 25D, Residential Energy Efficient Property, the IRS allows up to a 30% federal Investment Tax Credit (ITC) for installing residential Energy efficient property as a Qualified Solar Electric Property Expenditure. A qualified solar electric property expenditure is an expenditure for property which uses solar energy to generate electricity in a qualified dwelling unit located in the United States and used as a residence by the taxpayer.

Discover Energy Systems (DES) designs and manufactures lithium energy storage systems (ESS) and lithium batteries and hereby certifies that the DES products including but not limited to the AES LiFePO<sub>4</sub> SOLAR STATIONARY BATTERY, AES RACKMOUNT BATTERY MODULE, AES RACKMOUNT BATTERY MODULE COMBINER, AES RACKMOUNT QUICK STACK RACK, AES RACKMOUNT SLIMLINE ENCLOSURE, accessories, cabling and LYNK GATEWAY communication products qualify as solar electric property and therefore the tax credit when installed as part of a residential energy efficient property.

DES is not a tax advisor. Taxpayers claiming a tax credit should consult a tax professional with any questions. DES is not responsible or liable for taxpayers' ability to receive tax credits. This certification is not intended to constitute legal or tax advice.

Under penalties of perjury, I declare that I have examined this certification statement and that, to the best of my knowledge and belief, the facts presented are true, correct, and complete.

Brendon Sauer  
President and Chief Executive Officer
